## Appendix 5 — Post-1981 Unofficial Additions to 1981 Code

---

After Codification Ordinance 215 was adopted by Borough Council to codify the Borough's ordinances into the 1981 Code, numerous additional ordinances of a permanent nature were adopted which did not add their text to the 1981 Code. From 1981 to 1989, General Code Publishers Corp. printed unofficial codifications of many of such ordinances to the 1981 Code, with numeric and stylistic changes. Although these codifications and changes are unofficial, there were occasions where later ordinances made reference to them.

A copy of the unofficial chapters is provided with the online and CD-ROM versions of the Codified Ordinances.
